Some things to consider before you order chips: They are coarsely ground, may consist of more than one species of tree, and may have pine needles and leaves mixed in. A load contains 12 cubic yards, which is approximately 25' x 35' x 3" deep. **We cannot promise a delivery date because chips are only available as we complete work in your area.** Be aware that we cannot dump chips in streets, drainage areas, public access areas, under low powerlines, or low limbs. **Arboguard cannot remove chips once delivered, and cannot accept responsibility for damage to lawns, patios, driveways, sidewalks, sprinkler systems, or other objects below-ground.**

Please provide all information requested so that your order will not be delayed. We will call before delivery, and will not deliver if we are unable to reach you, unless you have checked the box below. By signing below, you indicate that you understand and accept the above conditions.
